Fall River, MA - A redesigned website that includes easy to navigate drop-down menus, featuring more detailed product and technical data, videos, a blog, and distributor locator has been introduced by Rex-Cut Abrasives. The Rex-Cut Abrasives Website features drop-down menus to let visitors find the exact product they are looking for, technical information, videos, news, a blog, handy distributor locator, and a comprehensive downloadable catalog. Products include cotton fiber mounted points and Type 1 and Type 27 wheels, quick-change discs, cut-off wheels, flap discs, and Soft Touch™ blending and polishing wheels for stainless, mild steel, aluminum, and exotics. Providing product specifications, application charts, and an MSDS library, the Rex-Cut Abrasives Website offers the metalworking industry high performance non-woven cotton fiber and other premium abrasive products that offer time-saving grinding, blending, and finishing solutions. Limited e-commerce for popular items, an e-mail signup, and social media links are included.

For more information, please visit www.rexcut.com.
